PATENT SHAPERS,
Quick Adjustable Stroke.
Can be changed while in motion.

Office ROBERT TARRANT,
59 Michigan St.,
Chicago, Feb. 12th, 1884.
Messrs. E. Gould & Eberhardt,
Gents: Newark, N. J.

We have probably got to have another shaping machine, and should be pleased to have you quote prices. We are extremely pleased with the gear cutting machine, and think we have got the finest one in this city. It has been going constantly since it was set up, and we have yet to find the first objection to it.

Very truly, &c,
ROBERT TARRANT

FIRST-CLASS PLANERS.

THE BROWN COTTON GIN CO.,

New London, Conn., Sept. 23, 1862.

Gentlemen:—In regard to the 26 in. x 26 in. x 8 ft. Planer, bought of you some time ago, it gives us pleasure to say that it is the best planer we ever saw. The man we have on it says it, "Takes the cake," being the best he has run during the thirty years he has been running planers. We are well pleased with our purchase, and no other planer would fill our orders, and we will have no other.

ED. T. BROWN, Treas.

Builders of Machinists' Tools.
